

### Autumn 2018

The feedback from our Governor questionnaires was overwhelmingly positive from all parents. It was heart-warming to read how much you appreciate all that the school does.

Parents told us:

- Just keep doing what you are doing
- It's the most forward-thinking, happy, professional school
- You help children to achieve their potential
- You look after children's emotional well being
- Excellent support
- Change nothing!
- All that you do is brilliant. Caring, nurturing and fair
- You know each child really well
- We love all the events, clubs, parental sessions and school fairs
- You believe in the children
- You involve the children in the decision-making
- Excellent communication with parents

Some of the suggestions you made are below, thank you for all your comments, we really appreciate your feedback

You said...	So we...
I miss the old reports that were handed out	Great news! We are returning to paper reports and you will be given your child's report at the end of the Spring Term 2019.
Sometimes there is too much communication	We will never please everyone on this matter – but please rest assured – the amount of email correspondence is something that we are currently reviewing.
Many of you love the new earlier timeslots for learning reviews – thank you – we are glad this is working for so many of you and we will continue with this practice  Some of you told us that you would like later time slots for learning reviews	We will be slightly extending our learning review evenings in the Summer Term.
You would like us to be more inclusive with sport	Great News! This is one of our key focus areas for our excellence plan this year. As of November 2018 41% of the school have already represented the school at an external event. Amazing job Coach Dobson!
One parent mentioned supporting children's mental health	Great news – this is a significant priority for us as a school. Every year in Health Week we cover mental health and this year the focus is going to be even greater. Look out for this in February.

One parent asked for more science

Great news – this year Science is a priority area on our excellence plan and some of you may already have spoken with your children about their 'STEM Days' where Science, English and maths are getting much more curriculum time.
